Scale up quickly to provide loan relief, timely financial guidance, and faster processing of insurance claims.

Automotive Cloud

Revolutionize the auto industry with integrated vehicle management, driver insights, and data-driven analytics for informed decision-making.

Manufacturing Cloud

Connect sales and operations to drive forecast accuracy and visibility across the ecosystem.

Products

Service Lifecycle Management (SLM)

Tavant's Service Lifecycle Management (SLM) solution enables organizations to provide a connected and seamless aftermarket service experience. It includes modules such as service contracts, parts, field service, warranty, quality management, supplier recovery, service intelligence, and more. Powered by the Salesforce platform, Tavant's SLM promises easy adoption and scalability while improving overall service efficiency and customer satisfaction.

Tavant Warranty

Tavant Warranty, powered by the Salesforce platform, is a next generation warranty management software solution with artificial intelligence and machine learning capabilities. With a strong emphasis on warranty spend reduction, lower cycle time, compliance, and proper warranty payout, Tavant Warranty empowers businesses to streamline processes, increase profitability, and enhance customer satisfaction.

Touchless Lending® Experience for Salesforce

Touchless Lending® Experience for Salesforce redefines lending engagement by seamlessly uniting multiple lead aggregators into a single 360° customer view. Empowered by AI, Touchless Lending™ transforms the mortgage journey, prioritizing customer-centric experiences across all channels while optimizing loan origination workflows.

TMAP

TMAP leverages advanced analytics and AI to deliver actionable insights that optimize aftermarket processes. It empowers OEMs to improve operational efficiency, diminish cost overheads, enhance product quality, optimize resource allocation, and decrease the overall cost of ownership. TMAP also drives revenue growth through IoT monetization, strategically priced service contracts, and parts pricing.

Advanced Analytics and AI

Tailored AI models for your needs

Effortless data integration and organization

Continuous model expansion through insights
