

TAVANT

UNLOCK THE POWER OF AI. ACCELERATE DIGITAL TRANSFORMATION.

Artificial Intelligence is bound to change how companies compete. Indications are everywhere. Innovation is at an incredible pace. Generative AI has been a game changer. In the not-too-distant future, automation will rise to a whole different level. Humans will be the fallback to agents rather than the other way around. Lifelike interactions will be possible and change everything.

However, to realize AI's full potential, enterprises must overcome fragmented data, the challenges in moving from experimentation to scale, rising costs, and resistance to change. At Tavant, we don't just help you develop AI models and intelligent applications. We help you unlock the power of AI through **transformation** - with Agentic AI, powerful data platforms, a global delivery model, and GenAI built into everything we do - to deliver **real business impact**.

THE CHALLENGE

Despite massive investment, most enterprises struggle to scale AI. Why?

Siloed & Poor-Quality Data

Fragmented, inconsistent, and non-AI-ready data blocks meaningful insights.

Scaling AI Beyond Pilots

Many AI initiatives fail to move from POC to enterprise-grade deployments.

High Costs & Talent Gaps

Rising infrastructure costs and limited AI expertise slow progress.

Resistance to Change

Operational inertia and unclear transformation paths hinder adoption.

Governance & Compliance Risks

Growing need for secure, explainable, and regulation-ready AI.

HOW TAVANT UNLOCKS AI VALUE

Tavant brings a powerful combination of deep expertise, proven methodologies, and scalable execution to help enterprises succeed with AI.

Deep Data Transformation Experience

From legacy migration to real-time architectures, we have deep experience in modernizing data platforms for speed, scalability, cost, and compliance.

Operationalized AI at Scale

We industrialize AI with MLOps and Data Ops best practices, ensuring reliable and cost-effective deployment, monitoring, and governance of models in production.

ROI-Focused AI Expertise

Our data scientists specialize in high-impact areas: customer engagement, supply chain, pricing, underwriting, and automation.

Global Talent at Scale

Access a blended, cost-effective global delivery model powered by a continuously trained AI talent factory.

Client-Centric Culture

We don't just deliver projects - we co-create success with a passion for long-term business impact.

GenAI Everywhere Embedded. Accelerated. Scalable.

Generative AI isn't an add-on - it's embedded across our entire delivery lifecycle. From data engineering and model development to user experiences and automation, Tavant infuses GenAI to drive faster innovation, higher productivity, and smarter decision-making. Whether you're reimagining your customer journey or streamlining operations, **GenAI helps us deliver better results, faster.**

WHAT WE DO

GenAI-accelerated Digital Transformation Step-function improvement in efficiency and speed in SW development, maintenance and app modernization	Enterprise transformation through Agentic AI Next generation enterprise efficiency and platform transformation powered by orchestrated Agents	Data Science - driven Revenue & Productivity Growth AI-powered custom solutions for business top-line growth, efficiency and productivity improvements	Data Modernization & Compliance Data platform modernization and operations that provide rapid and reliable access to trusted data	AI-powered Industry Software Products AI-powered software solutions and accelerators for high ROI business problems in selected industries
Custom Application Development	AI Agents	AI / ML Models & Intelligent Applications	Data Architecture & Cloud Transformation	AI-powered Lending Solutions
Legacy Application Modernization		Global Data Science Factory	Data Quality, Privacy, Governance & Compliance	
Strategic IT Outsourcing	Agentic AI Platforms	AI/ML Ops	Data Ops	AI-powered Service Lifecycle Management Solutions
Enterprise Platforms (Salesforce, ServiceNow)				
Tavant Algnite™ AI Accelerator Suite				

TAVANT AIGNITE™ AI ACCELERATOR SUITE

Accelerating AI Transformation

We speed up development and reduce operational cost through Algnite™, our portfolio of accelerators focused on the most prominent challenges in unlocking the power from AI.

Algnite™ AI & Agent Services

- ▶ Pre-built GenAI agents for rapid deployment
- ▶ Multi-LLM orchestration & enterprise-grade security
- ▶ Accelerated AI/ML model development with built-in compliance

Algnite™ Data

- ▶ AI-generated data pipelines & platform builders
- ▶ Cloud-native transformations using Snowflake, Databricks, etc.
- ▶ Integrated DataOps, FinOps, and Governance

Algnite™ Dev & IT Ops

- ▶ AI-assisted SDLC and IT Ops
- ▶ Predictive support, self-healing systems, and agent-driven automation

PARTNERSHIPS

WHY TAVANT

When enterprises choose Tavant, they partner with a team that fuses deep domain expertise, global delivery scale, and cutting-edge AI innovation.

WHAT SETS US APART

- ▶ **Born in Silicon Valley**, scaled globally
- ▶ **Algnite™ Accelerator Suite**: Purpose-built to drive speed, compliance, and automation
- ▶ **Agentic AI Pioneers**: Context-aware AI agents for finance, customer support, field ops, and more
- ▶ **Industry Products with Proven ROI**: Tavant Service Lifecycle Management, Touchless Lending®
- ▶ **Cloud-Native, Secure, and Scalable** deployments across Snowflake, Databricks, AWS, and Azure

RECOGNIZED LEADERSHIP

Tavant has been named a **Major Contender** in the **Everest Group Peak Matrix® 2025 for Data and AI Specialists**, a testament to our enterprise-grade solutions, client impact, and innovation in AI and data platforms.
